

Bear Tribe Catalog 1980

"I saw that the time drew near when, for the sake of the Earth Mother and all of our evolution as human beings, we must return to a better and truer understanding of the earth, and all of our relations on her. I saw that we would have to put aside the petty fears that divided us, and learn to live as true brothers and sisters in a loving way. I saw that we would have to find others who shared our hearts' direction, whatever their racial background, and join with them into groups that always remembered that our purpose was to be instruments of the Great Spirit's will, and helpers to our Earth Mother. I saw that such groups could greatly effect the cleansing of the earth that is now occurring."

Sun Bear

The Bear Tribe Medicine Society is a group of people striving daily to re-learn their proper relationship with the Earth Mother, the Great Spirit, and all of their relations in the mineral, plant, animal and human kingdoms. The Bear Tribe is based upon the vision of Sun Bear, a Chippewa medicine man. We are a tribe of teachers responsible for sharing with others those lessons of harmony that we are successfully learning.

Our camp is located on forty acres of land outside of Spokane, Washington. In the four years that we've been here we have constructed a longhouse in which we live, our sweat lodge, several cabins, a root cellar, a granary, a barn, animal accommodations, and storage sheds. A greenhouse, and additional housing and office space are in the planning stages. We have about ten acres in pasture, and we have planted several gardens. We have horses, cows, goats, chickens, rabbits, dogs and cats.

Each year we have several hundred people come to visit with us. With them we share our knowledge of Native American philosophy, earth awareness, and country living skills — gardening, building, food preserving, wild plant identification and use and animal care. Visitors are

expected to work with whatever is happening while they are here, and to abstain from drugs, alcohol, negativity and violence. We request a \$7 per day, or \$45 per week donation from visitors.

Since 1975 the Bear Tribe has been recognized as a non-profit, education and communications society. Besides having people visit our home we give four-day Self Reliance Seminars, and three-day Preparing for Vision seminars. Sun Bear, Wabun and some of our other members spend a good amount of time on the road lecturing and giving workshops and private consultations to individuals wishing to learn how to better balance their energies. Visits for those wishing private consultations are also available at our home, at a different rate from that charged people coming for work visits.

We publish MANY SMOKES, a Native and new age quarterly now in its eighteenth year. We also publish Sun Bear's BUFFALO HEARTS and THE BEAR TRIBE'S SELF RELIANCE BOOK. We distribute other books, Native crafts and tipis, and we help people find land on which they can settle. Our goods and services are covered in this catalogue. We hope that you enjoy reading it, and that it might be the first step in new folks getting to know us better, and old friends keeping up with our new activities. If you have any questions, drop us a line. Please enclose a stamped, self-addressed envelope, and be patient. We get a lot of mail.

THE SELF RELIANCE CENTER

The Bear Tribe's Self Reliance Center exists to allow contemporary people to better understand their relationship to the earth. At the Center, people of any age, of any race, may come to learn how to walk in a good balance with each other on the Earth Mother. Activities are designed to allow people to experience their oneness with each other, the Earth Mother and the universe. They are also designed to teach people the skills that they need to be self-reliant on the land.

During your stay at the Center, you will learn these skills by working alongside the members of the Bear Tribe. You will attend talks on the traditional Native way and philosophy, prophecy, practical skills, plant identification, healing, male and female energy, and relationships. You will participate in traditional prayers, sweat lodge and pipe ceremonies, and you will hear and discuss legends and stories about the traditional way.

THE TALKS

Talks on the traditional Native philosophy, Native prophecies for these times, relating to the Earth Mother, male/female energy, relationships, and forming communities will largely be given by Sun Bear and Wabun, his medicine helper. Talks on herbology, holistic healing, and practical skills for living with the land will be directed by Bear Tribe members most experienced in these areas.

WORK PERIODS

Part of what we have to teach is a properly joyful attitude toward work, whatever it is. During work periods people may learn this, as well as skills that will help them to live with the land.

SCHEDULE

Self Reliance Seminars last four days. We ask people to arrive by 9 a.m. on the day they begin, and to stay through dinner on the fourth day. While activities vary, depending on the season, and the people attending, our general schedule is talks in the morning and evening and work periods in the afternoon.

THE FACILITY

People attending the seminars will live in tipis or tents. Indoor space is available on a limited basis for those who need it. Accommodations are on a first-come basis unless you have special needs we know about beforehand. Most housing is dormitory style. You are free to bring your own tipi or tent.

Meals are shared in our longhouse. Our food is natural whenever possible. While we are not vegetarian, we try to accommodate those who are.

Bring sleeping bags, pillows, towels, good footwear, a flashlight, any munchies you want, clothes, musical instruments, a pocket knife. Nights can be cold, so dress accordingly.

Don't bring alcohol, drugs, violent or negative thoughts or feelings. **DON'T BRING ANY DOGS OR CATS.** We have four of each already in residence, and city animals often hurt the other farm critters.

DATES

In 1980 seminars are available: June 5-8, July 17-20, July 31-August 3, and September 4-7.

COST

The individual rate for this seminar is \$75 per person. People wishing to stay longer may do so, at \$7 per day donation. This includes the cost of the talks and other activities, and room and board.

TRANSPORTATION

Spokane is serviced by most major airlines, buses and trains. The Center is located 35 miles from Spokane. We provide transportation to and from town for \$7.50 per person each way. Please notify us in advance of your arrival time. If you are coming by car, let us know and we'll send you a map.

"I had one of the best times of my life both from being out in the country, and from discovering a part of me that I've known about but not been in contact with much before."

John Scarvie

"I thank you for the awareness and sensitivities you have shared with all of us. . . I love this whole place and the feelings and vibrations. So much has taken place for me. I know it will take a while to digest everything."

Maggie Lindoff

"I thank God for the wisdom he has given to Sun Bear and Wabun. . . I do hope that these good people be well-known and imitated. It has been a meaningful experience. I wouldn't add or change a thing."

Irene Skelly

PREPARING FOR VISION

Vision is the force that can provide your life with direction, purpose and meaning. Many people today sincerely desire to seek their vision so they know how their lives can best serve the Great Spirit and the Earth Mother. This seminar is designed to prepare people to seek their own vision.

In the old ways the vision provided the central direction to a person's life. While each person was expected to participate fully in the life of the tribe or the society, they were also expected to fulfill as much of their vision as possible while people sometimes strayed from the path of their vision, they were always expected to return to it if they wished to be whole, complete and fulfilled human beings.

Vision can come to a person in a variety of ways. You can experience a complete vision - one that brings to total understanding - while awake or asleep, or you can experience smaller visions which, taken as a whole, give direction to your life. This seminar will help you to recognize and accept vision in any way that it comes to you.

It will also give you the spiritual foundation you need before going to seek your vision. It includes instruction in the use of the pipe, a sweat lodge ceremony and personal counselling. Beginning on the Sunday of the seminar, participants may also spend one to four nights and days alone on our land, fasting and seeking their vision.

RECOMMENDED READING

Before attending we recommend that you read at least two of the following books:

BUFFALO HEARTS, Sun Bear \$3.50
BLACK ELK SPEAKS, Neihardt \$2.50
THE SACRED PIPE, ed. Brown \$2.95
LAME DEER, SEEKER OF VISIONS, Lame Deer/Erdoes \$2.25
SHAMANIC VOICES, Halifax \$6.95
HANTO YO, Hill, Warner Books \$3.50

These books are also available through us. Check the book catalogue section.

ACCOMODATIONS

These are the same as those listed for Self Reliance seminars. During your time alone you'll want a good sleeping bag, and clothes and a blanket that makes you feel good.

SCHEDULE

This seminar begins at noon on Friday. There are talks Friday afternoon and evening, and Saturday morning. Following lunch on Saturday, people fast to prepare for the sweat Sunday. During this time private counselling takes place. After the sweat people are placed on the land to experience seeking a vision.

COST

The cost for this seminar is \$75.00.

DATES

June 13-15 and August 22-24.

Comments From Participants In Our 1979 Vision Seminar

"The vision quest, and the love which you, Wabun and Sun Bear, and members of your family shared with us, has given me a solid grounding in the Earth and an awareness of the healing strength that I hold within myself. Thank you from the depths of my being."

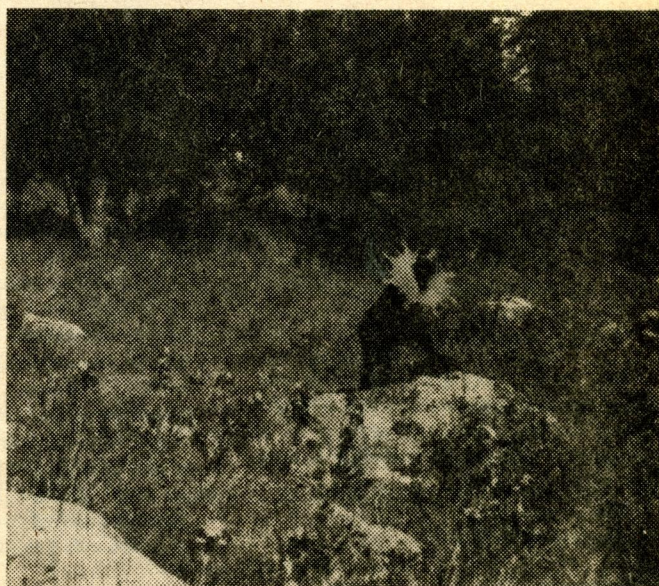

Margo Breazeal

"What the quest did was to help me remember that space in my heart where I am in harmony; and in love with the presence of the earth. . . you have given me the ability to be conscious of vision as a way of life."

Mark Cerri

"The feeling that the place, the people, the way of living, the ceremonies and teachings were all REAL, I appreciated most. Secondly, I appreciated feeling that the teachings and ceremonies were given in a sincere and honest spirit of service. Neither profit nor power were ever in the air."

Beth Foisy

LECTURES ON THE ROAD

"Sun Bear and Wabun kept a large audience spellbound and really helped make my twelve-year-old daughter open up to the prophecies for the coming year."

Robert Krahn
Newark, Delaware

"Wabun and Sun Bear celebrate life and convey that attitude in all that they do. Their sensitivity and flexibility enable them to work with the special needs of each group. Their loving tolerance is a guide for us to learn how to deal with the pain, anger and confusions of our time, so that we can be more aware of the beauty and abundance of life. Wabun and Sun Bear ARE a celebration of life."

Sandra Roman
Bellevue, Washington

"I am deeply grateful for the practical information for self reliance which I felt I absorbed surprisingly well. . . I hope good medicine will follow you as I know your good medicine has passed on to me."

Claudia Clement
Seattle, Washington

"I especially needed and appreciated your sharing your ceremonies with us. The medicine wheel talk was too short. I wanted to hear more. I have learned a lot — too much for words — and I feel that you gave the group/me a sense of trust which gives the opportunity to grow."

Gwenn Ronsh
Seattle, Washington

"The most important thing that you conveyed this weekend to me was the feeling — the emotional feeling — of relationship with the Earth Mother and the rest of life."

EARTH AWARENESS: WALKING IN BALANCE

Through their talks on Earth Awareness, Sun Bear and Wabun help individuals and groups to realize how they can actively support the life system of the planet. To help our Earth Mother, we have to come to the realization that each of us is an integral part of the planet, that our actions affect the whole earth. We must realize that for us to become holistically healthy persons, we must give some attention to the healing of the earth. While recycling and nutritional awareness are essential, effective personal ecology must go much deeper. It must penetrate our hearts as well as our minds. It must help us to come into balance with the earth, all of

the other life forms on her, and with ourselves.

During Earth Awareness seminars Sun Bear and Wabun also discuss traditional Native philosophy and religion, prophecies for these times, earth energy, female energy, the Medicine Wheel, the Circles of Life, visions, forming communities, and becoming self reliant.

Through talking, feedback, exercises, quiet times, questions and answers, Sun Bear and Wabun will help you to find out how you can help the earth, and your own future, at this crucial time.

Earth Awareness seminars can be done as evening lectures, weekend intensives, or midweek intensives. They can be sponsored by any interested parties or groups.

weekend intensive with four additional lectures during the following week.

THE MEDICINE WHEEL

This introduces people to the native way of learning about yourself that came to Sun Bear in a vision. In Medicine Wheel seminars you will learn about basic Native philosophy, and about the Earth Astrology, a way of self-knowledge that can help you to relate better to both the people around you, and the earth. Through learning of your birth and progressed totems, clans and directions, you will learn where you have been and can travel on the circle of your own life. You will also learn how to construct and use your own medicine wheel.

The Medicine Wheel is available as a one-day or two-day intensive, or as a mid-week seminar.

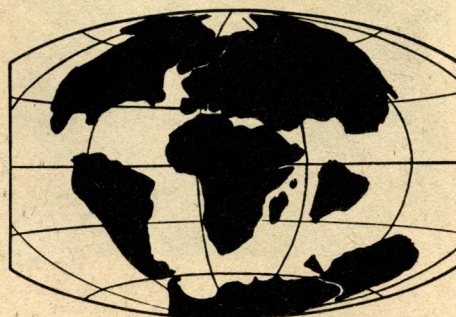

MAKING MEDICINE

This program covers basic Native philosophy and prophecy, earth energy, female energy, vision, community, ceremony, song, dance, Native healing methods and ceremonies, healing through the Medicine Wheel, and healing through breathing, massage, meditation, nutrition, exercise, herbs, and flowers.

Making Medicine is available as either a weekend or mid-week intensive, or as a

EARTH ENCOUNTERS

The purpose of Earth Encounters is to make you feel good about yourself, each other and your mother, the earth. We want to help you take off your blinders and see what is always around you — the amazing beauty, bounty and love. During this largely experiential seminar you will experience sensing the wonders of the earth that are always around you. You will locate a power spot. You will open up to your relations in the mineral and plant kingdoms, and learn how to express gratitude and respect to them. We'll discuss vision, and things that may block you from having it. You'll experience another way of dealing with your fear, pain, anger and confusion, and you'll

learn how to feed your fellow humans with the abundant love and beauty that is always around you.

Earth Encounters are weekend intensives which begin Saturday morning and last through Sunday afternoon. Ideally, they are presented in natural settings. They, too, may be sponsored by any interested group or individuals.

COST OF SEMINARS

Generally, a weekend intensive or midweek intensive costs \$55 per person if participants pre-register, and \$65 at the door. Weekend intensives which extend into the following week cost \$95 pre-registered, and \$110 at the door. The cost for evening lectures varies depending on the requirements of the sponsoring organization.

We are willing to work on an individual basis with sponsoring groups concerning finances, although we do, of course, have to be sure that our expenses and time away from our Center are covered. We do try to set up any long distance tours so that we can go to several places at one time, which helps to cut down on the expenses for the sponsoring organization.

None of the prices above include room or board. Sponsoring organizations are welcome to make their own plans concerning these.

INDIVIDUAL CONSULTATIONS WITH THE BEAR TRIBE

ENERGY BALANCING — Discuss any spiritual, emotional, mental or physical imbalances with members of the Bear Tribe. Learn how to bring your energy into a better balance within yourself, with the earth and with others. We use both Native and contemporary methods as needed to show each individual how to achieve balance in his/her life and to help them find the solution to their problems. Our methods might include the following: a traditional pipe ceremony, smudging, feather therapy, chanting, pendulum therapy, Bach flower remedies, earth energy instruction, aura cleansing, breath therapy and massage.

MEDICINE WHEEL READING — You were born into one position and set of totems and these form the foundation of this life. But, you have moved from that position as you have grown and developed as a person. This consultation is designed to place you on the medicine wheel mentally, physically, emotionally and spiritually, as you are now. By understanding these positions and totems and by learning how they relate to your birth position and totems you will have new tools for addressing your life as it is today.

The above consultations take approximately one hour. The suggested donation is \$50.00. At least two Bear Tribe members will be consulting with you during this time period. We also offer a half hour version of the energy balancing consultation for \$35.00, and we are willing to arrange for consultations with individual Tribe members if you so desire. The above prices include a cassette tape of the consultation if you wish.

LIFE CIRCLE CELEBRATIONS

If you are planning a celebration of your own progress around the medicine wheel of life, we'd like to help. We can perform marriages, introduce your new child to the Earth Mother and Great Spirit, and arrange celebrations for the time when a child becomes a youth, the coming on of womanhood, the time for vision quest, the making of blood brothers and sisters, and taking a new name. We can help you plan your celebration, and prepare for it. If contacted well in advance we can help you to perform the celebration, either at our place, or yours. For more information, contact THE BEAR TRIBE, P.O. BOX 9167, SPOKANE, WA 99209.

BOOKS

Friends, we have gathered here a large selection of books about Native American life, and Earth Awareness. We hope that access to these books will help your understanding, and your spirit. While prices and publishers were up-to-date at the time of printing, they change frequently because of the cost of printing, and of paper. If you order a book and the price has gone up, we will send you an invoice for the additional payment before mailing your book.

We will make every effort to help you find special books needed for research. We have access to most Bureau of American Ethnology report reprints, and to reprints of the treaties of many tribes. Let us know your needs.

Please allow us at least four weeks for delivery. Add 75¢ postage and handling for the first book, and 40¢ for each additional book. Unless you have established credit with us all orders are cash or C.O.D. We prefer cash as C.O.D. is more expensive for you, and gives us more paperwork.

We will print a new catalogue in early 1981. If you have any books you would like us to add, please let us know by early December of this year.
