Dear Olga Arkh - Here is Harman's

Report - except for the least
distance to leave a bad taste
in one's mouth - it is what
we expected & more -

Not only can it
be used commercially,

used incidentally to get advance
orders from members - but
since he is a philosopher he
really sums up all objections & it

it will therefore become the crux

of the dynamic of our work - let
that word wait for placement

Study of carefully when

July 1957 On train

Dear Olga and Andy--

Here is Marcuse's Preface-- except for the last sentence to leave a bad taste in one's mouth-- it is what we expected and more.

Not only can it be used commercially, and used incidentally to get advance orders from enemies-- but since he is a philosopher he really sums up all objections. It will therefore become the error that is the dynamic of our truth, but that will wait for Plenum. Study it carefully. When I get to Detroit, I'll let you know when you (Olga) will come up ahead.

Yours,
Rae
