

Sun. 1/16/67

Dear Olga: *Be sure read memo after for file when finished*

Please keep this note as below, is what I scribbled on form in joining SSC.

I want you too to join--take \$5 from N&L because I want you to join as managing editor of N&L. I wrote Dick & Eugene asking them to join & to formally request I be invited as panelist on 100th anniversary, etc. etc., but I don't know whether you should do the same; perhaps, so; you decide, but in any case join.

Also enclose copy of letter I sent Wayne State U. Phil. Dept.; keep for me.

I don't know what I'll do if I do not get a typist by Wed. I really can't move forward if I don't get those damned Absclutes out of my way.

I can't tell you how deeply disappointed I was with our visitors this weekend.

"O, what fools these mortals be" when they're not disciplined by M-H!

The only thing was S. saw Karel Kosik who told him: "I know of some of the earlier works by RD. I did not follow her latest publications, however. I would be glad to make the acquaintance of some of her materials." Which is carefully enough phrased not to tell anyone whether a dialogue is possible, but perhaps--here I surely have not a second to speak to on Hegel's Absclutes. I think HM will take this chance to break philosophically as well; I will however WHEN I get a typist to send him a copy of the chapter and see.

Geo, I'm so concerned on this damned phil. that I didn't even see the really exciting part of the letter: "Up to now I translated about 1/2 of the Nature of the Rus/Eco. As I told you already I am making it with the purpose of having it circulated..."
