III --WHAT IS PHILOSOPHY & REVOLUTION? WHAT IS AN IDEA WHOSE TIME HAS COME?

PORTUGAL, 1975

Portugal, 1975

Portugal is an entirely different case. It is entirely different, but it has one advantage that none of the others have-- the philosophic maturity of the age. Thus the Three Marias came before even April 1974 much less 1975. Thus, the so-called furthest left, the Communists, exposed themselves earliest precisely on this question as they attacked the Women's Liberationist. Thus, when the movement did move from overthrow to see whether you could have a total revolution, it is impossible for anyone to think it will be total unless it does include Womens Liberation.

we therefore must acknowledge origin
