literature from china

The Communist Party of Quebec (Marxist-Leninist) left a large amount of unpaid-for Chinese Literature with Librairie Progressiste in Montreal. New Hogtown Press, in conjunction with Better Read Graphics, has bought this literature to distribute in English Canada. The use of any money that we make above our purchase price and overhead will be determined after consultation with the government of China. We now have in stock well over a hundred titles in quantities varying from several hundreds to a handful, and we will be getting even more titles shortly; these should include writings of Marx, Engels and other Marxist writers. What follows is just a **partial** listing of our present stock. Please write for our complete Chinese literature list. In addition to our normal discount policy, large discounts may be arranged for **bulk** purchases by organizations that we feel will make good use of the literature.
